

RANKED CHOICE AND MOBILE VOTING: FOLLOW THE MONEY

Utah's Ranked Choice Voting pilot was funded by Democratic insiders to control Utah elections. Their goal is to use blockchain with both to end local governance and achieve Direct Democracy.

BACKGROUND

Global groups fund the Great Reset: Social Credit Scores= All citizens biometric IDs stored on blockchain technology. Citizens behaviors are tracked through things like mobile voting, digital currency, digital ID's (DLs and Vac Passports)

The World Bank & CCP are working to CENTRALIZE blockchains with the help of Big Tech.

To support the Great Reset, the following lobbying groups work together the shift state, county and city election policies. FairVote is the national lobby behind RCV and Voting changes. FairVote works to eliminate the electoral college without a Constitutional amendment. Mike Lind, co-founded both FairVote & the anti-American New American Foundation which houses the Blockchain Trust Accelerator (BTA). George Soros' son, Jonathan and Google's Eric Schmidt are on New American's board. BTA and Tusk Strategies fund blockchain RCV pilots and promote online/mobile voting using blockchain.
