

## PART TWO OF OUR RANKED CHOICE FOLLOW UP

# WHAT IS RANKED CHOICE VOTING?

Effective **3/26/2019** Utah Code **20A-5-80**  
(2)(b) (i) Voting equipment used in the state may include **technology that allows for ranked-choice voting.**

(ii) The **lieutenant governor** may, for voting equipment used for ranked-choice voting under Title 20A, Chapter 4, Part 6, Municipal Alternate Voting Methods Pilot Project, **certify voting equipment that has been successfully used within the United States** or a territory of the United States for ranked-choice voting for a race for federal office.

In Pilot cities only **25% of their voters only got one vote counted in a race for either 2 or 3 city council seats**, whereas other voters got more votes counted.

Effectively **eliminates the primary**

Depends on the computer to tell you who won

Ranked choice voting **favors middle-of-the-road results**, thus excluding true reformers from victory

**Obscures a true audit**, makes it almost impossible
